

Let us send you this genuine portable Victrola

Start in right now to
enjoy the world's best
music.

With a Victrola you
can hear at will the kind
of music you like best—you can have dance music whenever you want
to dance, you can have the most famous bands entertain you with their
stirring music—you can hear any music you want to hear.

This genuine Victrola will play for you any of the more than 5000
records listed in the Victor Record catalog.

It is handy for both outdoor and indoor use. Convenient for the
porch, the lawn, in camp, in the canoe—wherever you want to take it.
And in the home it is easily moved from one room to another as occasion
may require.

Give us the word to put this Victrola in your home—on easy payments, if you
prefer. Or call for a demonstration.

Weber Irrigation District Created By Big Majority

Marking the beginning of a new era
of irrigation development in Utah, the
first irrigation district to embrace an
entire county was created in Weber
county yesterday by a vote of 20,236
to 1744.

James R. Beus was elected as supervisor
of the district for a three-
year term, with a vote of 18,272;
James L. Robison of Plain City was
elected as supervisor for a two year
term by a vote of 15,813, and L. D.
McKay of Huntsville was elected for a
one-year term, with a vote of 11,613.

Harrisville, Pleasant View, Plain
City and the Josselyn division of the
district voted 100 per cent in favor
of the district. No dissenting vote
was cast in these sections.

OPPOSITION STRONG.
The opposition in district No. 2,
south of the Ogden river and west of
the mountains, was the strongest and
came principally from the extreme
western portion of this division.

In district No. 1, north of the Ogden
river and west of the mountains, pooled
the highest vote. This division was
88 per cent in favor of the district as
was shown by the vote of 11,887 for
as against the 138 votes against the
creation of the district.

In district No. 2, where the opposition
was strongest against the project,
524 votes were cast for the district,
as compared with 1393 negative votes.

In division No. 3 embracing Ogden
valley, an affirmative vote of 92 per
cent was cast. There were 2775 votes

cast for the district as compared with
253 opposing the district.

85,000 ACRES.
According to information received
from the Weber county farm bureau
today the district now comprises 85,
000 acres which will be provided with
additional water for irrigation purposes.

Fifteen thousand acres of land within
10 miles of Ogden, which to date
have been worthless as producers of
crops, will be reclaimed by the irrigation
district.

Details as to where and how the
additional water will be supplied will
be determined accurately after a complete
investigation has been made by the
board of directors. Tentative propo-
sitions for procuring the water, to-
gether with fillings of water rights on
various fixed water sources have al-
ready been outlined.

MARKS GREAT STEP.
W. P. Thomas, county agricultural
agent, stated today that the creation
of the district marks the greatest step
in the advancement of irrigation to
have been taken in Utah. He said that
California, recognized as a leader in
the United States, may have to look
to her laurels when the idea of cre-
ating irrigation districts as a means
of bringing prosperity gains impetus in
Utah.

"Other counties will follow in the
steps of Weber county," Mr. Thomas
said, "and California may have to look
to her laurels when the idea of cre-
ating irrigation districts as a means
of bringing prosperity gains impetus in
Utah."

The district will follow in the
steps of Weber county," Mr. Thomas
said, "and California may have to look
to her laurels when the idea of cre-
ating irrigation districts as a means
of bringing prosperity gains impetus in
Utah."

CANNING PLANTS START AUG. 20

Dormitories Built by Utah Canning
Plant Ready of Occu-
pancy This Week

Dormitories constructed by the
Utah Canning company for its women
workers will be ready for occupancy
Friday of this week according to an
announcement made today by H. L.
Herrington. Forty girls who will be
employed during the canning season
will be quartered in the dormitories, it
is said.

The building is 40 feet by 100 feet
and has every modern convenience.
Showers, bath, tub baths, modern lav-
atories, give the building a modern
aspect in every particular.

Girls employed during the canning
season will be allowed the use of the
dormitory free. They will be fur-
nished during the present week.

Trials runs of tomatoes will be made
by the Utah Canning company either
Friday or Saturday, early tomatoes be-
ing used. The season is scheduled to
start off in all Weber county plants
about August 20. It is expected that
a record production of tomatoes, beans
and catsup will be packed during the
season.

**MEXICAN GETS
JAIL TERM FOR
ARDENT WOOLING**

"As it seems that the defendant
is unable to work, though physi-
cally fit, and spends his time in
writing love letters to Mary, I
shall find him guilty of vagrancy
and sentence him to pay a fine of
\$10 or serve 10 days in the city
jail."

Judge D. R. Roberts, in the
above manner, settled a question
of unrequited affection that re-
sulted in the arrest of Abel Gar-
cia.

It appeared that Garcia, in the
course of his ardent wooing, had
incurred enmity of fellow workers,
had frightened women in the
neighborhood of Twenty-eighth
street and Pacific, and had peeped
in windows of certain houses.

"Scotty" Rankin, chief of the
city jail, arrested the defendant,
and appeared as a witness against
him.

Mrs. Louise Gilote, who said
that Garcia had frightened her by
walking to and fro in front of her
house, also appeared against the
man.

"Maria" Garcia said through an
interpreter, that she had failed to
respond to four ardent epistles
which he had sent her hoping to
win her affections.

The police said that "Mary" left
town this morning to avoid being
called as a witness in the case.

**ITALY URGES BEEKEEPING
TO MEET SUGAR FAMINE**

ROME, Aug. 11.—Italy is devising
means to alleviate the beet sugar
shortage. She has been urged to put
more bees at work producing honey.

Italy in 1917 had nearly 67,000
miles of railways and at regular in-
tervals along the lines are little
houses where the railway employes,
signalmen, track walkers and repair-
men live. The manager of the Na-
tional Institute for Agrarian Assis-
tance recently recommended that they
each be given a hive of bees. In con-
formity with the suggestion the ex-
periment is to be begun at once on
the lines in the province of Rome and,
if successful, it will be extended to
all the railways of Italy.

FOUR MILLION FOR ROAD WORK IN UTAH, NEVADA

Federal Aid Big Factor in
Improving and Building
Highways

More than \$4,000,000 is being spent
in Utah and Nevada on road construc-
tion, according to a report made today
by the United States bureau of public
roads.

The work for this district is under
the supervision of E. J. Finch, district
engineer, W. N. Erickson, senior high-
way engineer, R. W. Matteson, senior
highway engineer, and A. B. Brown,
highway engineer. Engineer Erick-
son directs the work in Nevada and
Utah with Matteson assigned to Utah
work and Brown in charge of the work
in Nevada.

In spite of the difficulty in securing
efficient contractors, laborers and ma-
terial, post road construction has at-
tained large figures as shown by the
following summary of the status of
post road procedure in Utah and Ne-
vada.

ESTIMATED COST.
The estimated cost of projects under
agreement is as follows:
Utah, \$1,971,550.07; Nevada, \$2,
271,770.72; District total, \$4,243,
320.79.

The amount of federal aid involved
in these projects is:
Utah, \$856,775.02; Nevada, \$1,133,
324.19; District total, \$1,990,099.21.

By the "Project Agreement" is
meant a definite contract between the
secretary of agriculture and the state
highway department. When the project
agreement is executed by both the
secretary and the state, the state may
begin to draw money on account of
work actually performed.

UNDER CONSTRUCTION.
Of the above projects, the following
are actually under construction:
Utah, \$1,211,383.55; Nevada, \$1,
856,747.97; District total, \$3,068,131.
52.

The amount of federal aid involved
in these projects under construction is:
Utah, \$605,692.75; Nevada, \$926,
012.35; District total, \$1,531,705.10.

In addition to project under agree-
ment, preliminary approval has been
given to project statements for the
following amounts:
Utah, \$524,561.64; Nevada, \$651,
641.27; District total, \$1,176,202.91.

The federal aid involved in these
project statements is:
Utah, \$254,501.95; Nevada, \$324,
412.32; District total, \$578,914.27.

In the procedure prescribed, these
project statements are followed by de-
tail plans, specifications and estimates,
upon which agreements are drawn. As
soon as these plans are approved in
the district office, construction may
begin. Plans relative to these project
statements to the following amounts
have been approved in the district
office and the projects are under
construction or bids have been received
or are about to be received:

Utah, \$737,327.53; Nevada, \$124,
138.62; District total, \$861,466.15.

INVOLVE FEDERAL AID.
These involve federal aid as follows:
Utah, \$380,326.29; Nevada, \$58,
192.94; District total, \$438,519.23.

The total estimated cost of work
under construction or ready for con-
tractors in the district is therefore \$3,
256,609.98, involving federal aid to the
amount of \$1,579,224.34.

Federal aid vouchers, actually ap-
proved in the district office for pay-
ment amount to:
Utah, \$135,303.88; Nevada, \$326,
889.60; District total, \$462,193.48.

At least \$200,000 more has been
earned and vouchers will be approved
as soon as submitted by the respec-
tive states. It requires about three
weeks from the time a voucher is re-
ceived in the district office in proper
form for the passage through the
Washington office and actual receipt
by the state highway department.

WILL ISSUE CHALLENGE.
SYDNEY, C. E., Aug. 11.—The Royal
Cape Eretion squadron announced
today that it would challenge for the
America's cup as soon as satisfactory
arrangements can be completed to fi-
nance the project.

Spiritualists tip the table, but the
man who tips the water fares better.

**"FOLLOW THE GREEN LINE"
GUIDES SHIP TO HARBOR**

NEW YORK, Aug. 11.—The prin-
ciple of "follow the green line," used
successfully by the management of
New York's subway system in hand-
ling crowds at congested transfer
points has been adapted in a mea-
sure to insure safety to ships at sea
around crowded harbors. Instead of
a visible "green line," however, a de-
vice has been perfected whereby ves-
sels seeking their way into harbor
in thick weather can follow with
safety a submerged and energized wire.

In the outer reaches of N. Y. har-
bor where deep water meets shoals,
there begins a marine passage way
known as Ambrose channel. This
channel leads up through the nar-
rows into the inner harbor and to
the docks and in this channel the
guiding cable has been laid. Ships
properly equipped to take advantage
of its guiding powers can follow it
through any kind of weather with the
same degree of assurance as can the
passenger who seeks to make his way

from Grand Central terminal to Times
Square.

The device consists of a cable 16
miles long laid in the center of the
channel. It is energized with an al-
ternating current from the shore.
Ships to take advantage of it must
be equipped with audiphones or lis-
tening devices attached to the hull.
Approaching the channel the sound
waves emitted by the cable can be
heard for some distance, and the in-
creasing or decreasing strength of the
sound enables the ship to be steered
until it is right over the source. It
is then a simple matter to follow its
course through the dredged channel,
despite storm or fog which would
make the marking buoys invisible or
would tend to confuse the warning
notes of automatic bell and whistle
markers.

**300 KISSES EVERY DAY
IS TOO MUCH, SAYS WIFE**

(By International News Service).
NEW YORK, Aug. 11.—Is a man in-
sane because he kisses his own wife
300 times in one day or because he

wants to see her smile all the time?
These are questions that Magistrate
O'Neil in the Adams street court,
Brooklyn, was called upon to answer
when Edward A. Stoddard, Brooklyn
was arraigned before him on a com-
plaint brought by his wife, Elizabeth.
Mrs. Stoddard told the court that she
feared that her husband's sanity was
affected by his service in the war.

"Why, your honor," said Mrs. Stod-
dard, "he kissed me 300 times in one
day. He wanted me to smile all the
time and the other day threatened me
with a penknife if I wouldn't obey
him."

Magistrate O'Neil, after hearing all
this, figured that the question of Stod-
dard's sanity should be passed on by
more competent authority, so he or-
dered that the defendant be sent to
the Kings county hospital for exami-
nation.

Stoddard was a private and was
wounded and shell shocked in France.

In the county of Durham, Eng., it
is an old custom to give fruit cake
and cheese to the first person met on
the way to the church by a christen-
ing party.

Quarrel Over Water Taken Before Court

In a quarrel over water rights which
occurred at Roy yesterday afternoon,
Joseph A. Olson suffered a black eye
while S. Saunders suffered a bruised
arm, according to an account of the af-
fair given by Saunders this morning.

Olson had Saunders arrested. The
latter appeared before the city court
this morning. He entered a plea of
not guilty and County Attorney Joseph
B. Bates asked for a continuance of
the case until he can establish certain
points which were not clearly placed
before him.

Saunders alleged that Olson was tak-
ing water to which he had no right.
He said that when he took steps to
prevent the diverting of the water Ol-
son attacked him with a shovel. Saun-
ders is said to have seized the shovel,
after having been struck, and hit Ol-
son in the eye.

**Free & Accepted Masons
Weber Lodge No. 6
Funeral Notice**

The funeral of our late brother, John
B. Nollings, will be held at temple,
Thursday, August 12, at 2 p. m. Broth-
ers please be in attendance. 1:30 p.
m. By order of W. M.

F. E. NICHOLS,
Secretary.

some figure rather than a pretty face.

Award Contract for South Utah Highway

Five bids on the Manti-Pigeon Hol-
low road in southern Utah were opened
at the meeting of the state road com-
mission at Salt Lake yesterday, accord-
ing to B. J. Finch, district engineer for
the United States bureau of public
roads in Ogden. Three of the bids
were on concrete construction. The
concrete construction bids were for a
thickness of 7 and 13 inches, the low-
est bid being \$33,755 per mile or \$2.75
per square yard, the material to be
furnished by the state.

The other two bids opened were for
bitulithic paving, the lowest bid being
\$34,655 per mile or at the rate of \$2.75
per square yard. The total thickness
of the bitulithic paving in the bids
called for a thickness of but 6 and 13
inches, one inch less than the concrete.

The contract was awarded to Olaf Nel-
son. Nelson agreed to finish the work
in 390 working days, the road being
12.6 miles in length, and will be con-
structed of concrete.

**Viners Produce 100
Tons of Peas in Week**

Alma Peterson of Huntsville, who
was in Ogden today making arrange-
ments to buy a home here, gave an in-
dication of the bountiful crop condi-
tions in the valley this year.

"In one day last week," he said, "the
five viners in the valley turned out
more than 100 tons of shelled peas
from the pea vines hauled to the viners
by valley farmers."

Why Castoria?

YEARS ago Castor Oil, Paregoric, Drops and Soothing Syrups were the remedies
in common use for Infants and Children; Castor Oil so nauseating as to be
almost impossible and the others all containing Opium in one form or another,
but so disguised as to make them pleasant to the taste, yet really to stupify the
child and give the appearance of relief from pain.

It required years of research to find a purely vegetable combination that
would take the place of these disagreeable, unpleasant and vicious remedies that
from habit had become almost universal. This was the inception of, and the reason
for, the introduction of Fletcher's Castoria, and for over 30 years it has proven its
worth, received the praise of Physicians everywhere and become a household word
among mothers.

A remedy ESPECIALLY prepared for Infants and Children and no mother
would think of giving to her baby a remedy that she would use for herself,
without consulting a physician.

Children Cry For Fletcher's CASTORIA

Have You Tried It?

Everybody has read the above headline; how many believe it?
Have you a little-one in the home, and has that dear little mite
when its stomach was not just right felt the comforts that come with
the use of Fletcher's Castoria? You have heard the cry of pain.
Have you heard them cry for Fletcher's Castoria? Try it.

Just help baby out of its trouble tomorrow with a taste of Cas-
toria. Watch the difference in the tone of the cry, the look in the
eye, the wiggle in the tiny fingers. The transformation is complete—
from pain to pleasure. Try it.

You'll find a wonderful lot of information about Baby in the
booklet that is wrapped around every bottle of Fletcher's Castoria.
